INTRODUCCIÓN

El material didáctico para la guitarra solista en nuestro contexto local, se ha enriquecido desde la academia y especialmente desde la Universidad de Nariño, alma mater que apoya la creación y la divulgación de las producciones académicas de sus docentes en diferentes áreas, a través del sistema de publicaciones.

Para el caso específico es pertinente resaltar que se continúa haciendo un gran aporte educativo para que aquella música tradicional de nuestros compositores autóctonos plasmadas en ritmos de Sonsureño, pasillos, sanjuanitos y vales entre otros, no vaya a quedar en el olvido dada la masificación de las comunicaciones y las redes sociales que diaria mente nos saturan de otras músicas que están apoyadas por un punto de vista puramente comercial.

Es nuestro deber como educadores mantener y preservar esas características culturales que nos identifican y nos diferencian de otras regiones dentro y fuera del país; esas características están presentes en las múltiples formas de manifestar el arte como: la danza, la poesía, la pintura, las artes musicales y porque no, en nuestro patrimonio intangible de la humanidad el carnaval de negros y blancos, evento donde se funde todo nuestro potencial creador.

El presente material didáctico aparte de preservar nuestras composiciones permite también a los instrumentistas nacionales e internacionales, contar con otro repertorio elaborado con el rigor académico conservando su esencia natural.

Rolando Chamorro Jiménez

PRESENTACIÓN

De todas las manifestaciones del Arte sin duda alguna la que más se aproxima a la perfección es la Música, que a lo largo de la historia de la humanidad se ha enmarcado en sus distintas épocas, definiendo derroteros de evolución los cuales seguirán siendo perennes de generación en generación. Pero quiero referirme en particular a un instrumento que con sus sonidos evoca lo sublime del alma, son esas seis cuerdas que al ser pulsadas con magistrales manos, matizan patrones culturales haciendo parte de la identidad folclórica de cualquier región, país, continente, ella es su majestad la GUITARRA.

En esta ocasión me ha sido encomendada la tarea de presentar a un gran Artista pero más que eso debo destacar su lealtad, su amistad, sobre todo su consagración a la interpretación de la guitarra, convirtiéndose en un insigne referente para el estudio de este gran instrumento melódico armónico, pues a menudo, no es fácil encontrar artistas íntegros en donde se conjuguen esas dotes de pedagogo, docente, poeta, compositor y hasta algo de loco, cualidades como las que posee el maestro ROLANDO EFRAIN CHAMORRO JIMENEZ.

Pues dentro su destacada labor artística deja a nuestra disposición diez obras de insignes compositores nariñenses, repertorio relacionado con la diversidad de las diferentes regiones musicales de Colombia, en donde se exhibe la magia musical y sublime interpretación de versiones magistrales para guitarra. Sin duda recomendando el estudio de esta gran obra musical, sé que muchos colegas amantes del estudio de este instrumento están de acuerdo conmigo, toda vez que se refleja no solamente el talento sino una amplia información académica fácil de comprender, con el propósito de conservar, mantener, difundir e interpretar nuestro folclore colombiano.

PRESENTATION

Of all the manifestations of Art, without a doubt the one that is closest to perfection is Music, which throughout human history has been framed in its different eras, defining evolution paths which will continue to be perennial of generation in generation. But I want to refer particularly to an instrument that with its sounds evokes the sublime of the soul, are those six strings that when plucked with masterful hands, nuances cultural patterns becoming part of the folk identity of any region, country, continent, she is its majesty the GUITAR.

On this occasion, I have been entrusted with the task to present a great Artist, but more than that, I must emphasize his loyalty, his friendship, especially his consecration to the interpretation of the guitar, becoming a distinguished reference for the study of this great instrument. harmonic melodic, well it is often not easy to find complete artists where those skills of pedagogue, teacher, poet, composer, and even something crazy are combined, qualities such as those possessed by the MAESTRO ROLANDO EFRAIN CHAMORRO JIMENEZ.

Well, within his featured artistic work he leaves at our disposal ten works by distinguished Nariño composers, a repertoire related to the diversity of the different Colombian musical regions, where musical magic and sublime interpretation of masterful versions for guitar are exhibited. Without a doubt I recommend the study of this great musical work, I know that many colleagues who love the study of this instrument agree with me, every time that not only talent but also extensive academic information easy to understand are reflected, in order to preserve, maintain, spread and interpret our Colombian folklore.
